PROJECT NUMBER:	1053 (Tng)	SESSION NUMBER:	1
DATE OF SESSION:	05 MAR 90	DATE OF REPORT:	05 MAR 90
START:	0850	END:	0920
METHODOLOGY:	CRV	VIEWER IDENTIFIER:	052

1. (S/STD) MISSION: To describe the target site (Luray Caverns) in Stage 2 terminology.
2. (S/STD) VIEWER TASKING: Encrypted coordinates only.
3. (S/STD) COMMENTS: No Physical Inclemencies. 052 accessed the site quickly and achieved good, accurate perceptions. At one point, 052, for the first time, demonstrated the "classic" symptoms of being so involved with the site as to be out of communication with the Monitor. While this is discouraged in later stages, it is indicative of 052's growing ability to access and maintain strong and excellent site contact.

# Discover Another World

Lowered into the earth on the end of a rope, Andrew Campbell and Benton Stebbins followed winding passageways from one gigantic room to the next. Even in the flickering candlelight, they knew they had made a spectacular discovery.

The soaring cavern walls reflected every color of the rainbow. The light from their candles danced over the surface of crystal-clear pools. And every way they turned, there were formations more breathtaking than the last. Since that August day in 1878, visitors by the millions have made Luray Caverns the most popular cave in the East, a world of magic and majesty still as "Marvelously beautiful" as it was in newspaper headlines over a century ago.

During the one hour conducted tour, taken over comfortable paved walkways, you will be astonished at the variety of formations and be absolutely amazed when you "hear rocks sing" on the world's only Stalacpipe Organ.

**STALAGMITES ARE ONLY THE BEGINNING.** After the caverns' tour you can explore the romantic history of transportation at the Historic Car and Carriage Caravan. Then relax and browse through gift and specialty shops or just admire the beauty of the surroundings.

**A VACATION EXPERIENCE YOU WILL REMEMBER.** When getting your vacation's worth means something exciting and different, there's nothing on earth like Luray Caverns and there's never a better time to discover this REGISTERED NATURAL LANDMARK than this year.

## THE GREAT STALACPIPE ORGAN.

The world's only Stalacpipe Organ is a many-acre symphony of sight and sound. The inventor, Leland W. Sprinkle, combined Man's genius and the Hand of God when he created this unusual and fascinating musical instrument. Stalacpites tuned to concert pitch and accuracy are struck by electronically controlled rubber-

tipped plungers to produce music of symphonic quality. . . you must see and hear this amazing instrument to appreciate it.
